PharmWaste Technologies speaks at an H2E Event

URBANDALE, IA (October 2, 2009) PharmWaste Technologies Inc. (PTI), a leader in pharmaceutical waste identification gave a technical presentation today at the Hospital for a Healthy Environment (H2E) and Kansas City Association of Healthcare Engineers Conference in Overland Park, Kansas.

“Hospitals are very concerned with the proper identification and handling of hazardous pharmaceuticals as evident by the turnout at this conference.” said Jeff Hollar, President of PharmWaste Technologies. “Proper education and awareness are essential for a successful pharmaceutical hazardous waste program.” says Hollar.

An outline of the presentation can be found online at www.pwaste.com, under the resources section as a presentation.

About PharmWaste Technologies - PharmWaste Technologies Inc. is an industry leader in providing solutions surrounding the complex area of pharmaceutical waste identification through a combination of industry experience and innovative software.
